# LOCAL MARKET IS RAIDED BY BEARS

Hammer Knight Stocks Down to Lowest Level in Many Months.

OTHERS DROP IN SYMPATHY

Colorado and Iron Blossom Hit Hardest by Movement to Lower Prices Of Securities.

The bear raiders were in control of the local stock market this morning and with a masterful hand they hammered prices down in a manner that was close to a panic. Persons who vere holding Knight stocks on margins were hit the hardest and the ef-forts of the brokers to get out from under caused a scramble in the pit this morning that has not been seen for some time. There was apparently no effort by the short end of the mar-ket to fill and prices were knocked off in a manner that sent many to

off in a manner that sent many to cover.

Other stocks in sympathy with the Knight securities sagged heavily and began to slump in a manner that caused considerable nervousness. Brokers who were holding large blocks of stock on a margin sought to get out from under and the prices continued to sag at a terrific rate. Even stocks which are almost gift edge suffered from the attack. Scarcely one of the large stocks was able to withstand the pressure that was brought to bear and prices went down with a bang. Toward the close some effort was made to retrieve lost ground with a fair amount of success.

amount of success.

Black Jack was the first stock to suffer at the hands of the movement to
send stocks down to new levels. It
opened at 33½ cents, which is below the
selling price of yesterday. In sympathy with this Bullock reached a new
low write of 615 cents.

COLORADO HITS TOBOGGAN, Colorado bit the toboggan in hard style. It opened at \$2.75, which is far below the selling price of yesterday. This is 70 cents lower than it was some time ago when the story was circulated about the proposed sale of the property. From that the price sagged to \$2.67½ cents, the lowest in months, At the close of the open board the stock managed to straggle back to \$2.72%.

managed to straggle back to \$2.72%. In sympathy with the move Columbus Consolidated ceased its efforts to move up and sold for \$2.75. All other stocks followed the trend of the market except Tintic Development, which was

Iron Blossom took the biggest leap and dropped to the new low price of \$1.82\frac{1}{6}, after opening at \$2. During the panicky time that this stock was going down 26.665 shares were dumped panicky time that this stock was going down 26,665 shares were dumped on the market; 12,465 shares of the stock crossed the rail at \$1.85. An effort was made to regain ground but the stock soon fell back again to the lowest level, when 700 shares were disposed of. On the open board the stock showed an effort to get back to a new level and was selling somewhat stronger at the close at \$1.92 %.

It is understood that none of the heavy interests in the Knight stecks have been unloaded on the market and the movement was purely a professional one. The strange part of the raid on Iron Blossom is that an eight cent divident is in sight and their is almost positive assurance that this dividend may be maintained for some time to come. It is asserted by persons on the inside that physical 60.

OTHERS GO LOWER. Mason Valley was lower this morning on account of the market and Nevada Hills showed the same tendancy. Sloux Consolidated seems to have struck the bed rock place and was steady at \$1.05 and \$1.07½.

There was but little doing on the curb market this morning. Ulntah Treasure Hill, another Knight stock that has been a star performer on the market was low today. It sold at 22 cents and 20 cents was bid for the stock. Beaver Combination received a bid of 5 cents. It was offered at 10 cents with no sales. Zuma received a bid of 10 cents.

Mines Southwest of City Are Increasing Their Forces Of Men.

PRINCE CONSOLIDATED WORK.

Golden Prince and Gold & Silver Prince Are Pushing Development Work on Property.

Reports from the old camp of Pioche which was once one of the great camps of Nevada, are that the properties there are coming to the front stronger than ever before and the activity this summer will be something that will surpass anything ever seen there. Every train, it is declared, is taking new people into the camp. Conditions are fast mproving in such a manner that the residents are confident that their time

has come to get in a boost. Relative to activities there, the Pioche Record has the following to say of the latest properties to begin work:

More than 100 men are now employed within a radius of a mile of the Ploche King and Golden Prince, and Indications are that this number will be

greatly increased long before the year is brought to a close. The Prince Consolidated company is working nearly 50 men; the Golden Prince, Gold & Silver Prince and Pioche King making up the balance.

King making up the balance.

Some big operations have been started on that side of the camp and probably the best news of the week is the announcement that the Gold & Silver Prince has located its permanent working shaft and has the excavations for the splendid equipment, shortly to be installed, at that property, well nigh completed.

By Dean S. Low, one of the principal shareholders in the Golden Prince and Gold & Silver Prince, and who is a son of M. A. Low, the Topeka, Kansas, millionaire and a leading factor in the exploitation of the last two named mines, the Record has been told that a 25 horsepower Alamo gasoline hoist is to be set up at the Gold & Silver Prince. Also that it is the intention to carry on a very vigorous campulgan there this segam. to carry on a very vigorous campuign there this season. Thomas Varden, formerly connected with the official staff of the Ohio Copper company at Blugham, Utah, has been employed as foreman and already has the work well in hand.

NEW, LOW RESIDENCE.

Some very substantial improvements are to be made at both the Golden Prince and Gold & Silver Prince, Dean S. Low contemplates the erection of a handsome residence.

Among other improvements in con-nection with the mines with which Mr. Low is associated will be an elec-tric lighting plant, a refrigerating plant, boarding house and an assay

office.

Cottages are to be built by other officials of these mines; one by W. M.
Thompson, another by George Coxe.

In fact, it is reasonably certain now that a new town will be established over on that side of the district with every indication that it will be numbered among the live mining towns of the state.

The exact location for the new mu-

ing towns of the state.

The exact location for the new municipality has not been definitely determined; neither has the name been selected. But a new town will be built and that will create new interest and contribute to the general prosperity of this region. It has been suggested that the place be called "Princeton." VALUES AT COLFAX.

Development work on the Colfax property in the Highland district is progressing and Manager Ed F. Freudenthal says, with most excellent results. The sensational silver values found at the grass roots in the Colfax ledge. Mr. Freudenthal declares,

#### are holding their own as depth is at LIST DECKER CANYON.

Decker Canyon Mining company stock was called for the first time on the local market this morning, al-though it has been sold frequently on the curb market for several weeks. The listing committee approved of the stock yesterday. The property of the company is situated in Wasatch coun-

In the application for listing it is shown that the company is capitalized at \$50,000, with shares at 5 cents each, of the number of shares, 375,000 were

at \$50,000, with shares of 5 cents each, of the number of shares, \$75,000 were set aside as treasury stock and from this 175,000 have been sold. The cosh on hand amounts to \$1,625. The company owns 12 claims northwest of Charleston in what is known as Decker canvon. The property is three miles south of the Mountain Lake company's mine. It is three miles from the Heber City branch of the Rio Grande Western rallroad.

Development on the property consists of 1,100 feet of tunneling, 75 feet of shafts, 75 feet of winzes and 30 feet of crosscuts. The officers are Jesse Buckner, president; John E. Peay, vice president and P. P. Hindmarsh, secretary and treasurer. It was on this property that a big cave was recently discovered. The claims contain gold, silver, lead and copper. The tunnel is equipped with rails, cars and other necessary mining equipment.

### LIVE OAK AFTER VEIN.

Residents of Monroe, Sevier county, who are interested in the Lave Oak mine a few miles south of that place, are now confident of some good results to reward them for their work before next summer is over. The property is operated in purely a local way and the

owners have gone about their work slowly. Some years ago there was an 18-inch outcropping found on the property. It was a high grade showing of gold ore. Work was commenced at once and a tunnel was sent in to cut the vein. Since then work has gone steadily ahead until it is now but a poster of a few mouths before suffice. matter of a few months before suffinstrate what is contained in the prop-

#### NEW PLANT TO SUPPLY MINES.

C. E. Short and Walter A. Alsford senator from Ohio, were here last Sat senator from Ohio, were here last Saturday looking over the possibility of establishing an electric power plant in Coal Creek canyon. It is the intention, if feasable, to put in a plant and transmit power to Gold Springs, Utah, and Ploche, Nev. These mining camps are handicapped for want of power and the men have been looking over the country for some time in order to find the best place to establish a plant. They state that no place in southern Utah is better adapted than here, and assured the reporter of the Record that at no very distant day one would be installed.—Iron County Record.

#### CONCENTRATES.

E. S. Chafey has returned from Cha-fey with the news that the new custom mill, built at that place by Salt Lake capital, started up Monday. This means much to the leasers of that

W. J. Craig, who is interested with R. J. Evans in property in Barbery canyon, near Chafey, returned from that place yesterday. He says that with the addition of a few slight details the compressor and new engine at the property will be in action.

The monthly statement issued by the Copper Producers' association shows that stocks of marketable copper on hand in the United States on April 1 were 182,279,902 pounds, an increase of March 1. The production of copper during March was 117,058,661 pounds. and deliveries were 108,063,007 pounds.

J. M. Reynolds has returned from a trip to Beaver county during which time he visited the famous old Jim Laveille group, which is now getting good results in new hands, under the name of Nip and Tuck. He asserts that there is not a piece or a ton of ore in the mine or on the dump that does not touch \$55 a ton. A ten-inea streak, he declares, averages \$250 a ton. streak, he declares, averages \$250 a ton.

Moylan C. Fox filed suit in the Third district court today against the Consolidated Flagstaff Mines company to quiet title to Lucky Star mining claim. It is alleged that the defendant who claims to be the owner of the Bone No. 1 mining claim caused a survey to he made of its property so that it over-lapped the Lucky Star claim. The suit is brought to determine the ownership of the area in conflict,

Benjamin H. Smith, administrator o Benjamin H. Smith, administrator of the estate of William B. Smith, filed suit against the Wasatch Utah Mining company today in the Third district court in which he seeks to recover 3,000 shares of stock or \$1,500. It is alleged that the deceased was the owner of 3,000 shares of the capital stock and although he has demanded the possession of the stock certificate that the officers of the company has refused to rs of the company has refused to give it to him.

According to Superintendent Ames of the Daly West property at Park City the upraise from the tunnel level to tap the Daly West shaft is in about 75 feet, and an average of 6 feet a day is being made. With good conditions prevailing the connection should be made by June 1. This will give the property 600 feet of new stoping ground. While this work is going on, the drift from the tunnel level is being run to cut the Daly vein in the Daly West ground, which is estimated to be about 400 feet from the present workings.

W. C. Marshall is in the city from

W. C. Marshall is in the city from Four Mile, near Milford. He declares that the recent rush of the citizens of that place to the new goldfields at Four that place to the new goldfields at Four-Mile received quite a set back. He as-serts to one unacquainted with gold formations it was uninviting. Seven wagen loads of people rushed out after learning of the finding of some fine gold float. Mr. Marshall says they did not like what they saw and returned. "The formation is absolutely right for the finding of strong veins of gold-bearing ore." says Mr. Marshall.

# WOOL.

ST. LOUIS.

St. Louis, April 12.-Wool, unchanged. Territory and western mediums, 18@20; fine mediums, 17@20; fine, 11@17. BOSTON.

Boston. April 13.—There is more activity in Boston wool tracing than for several weeks. Demand has improved and the volume of new contracts closed is comparatively large. Foreign wool continues of chief interest. Sales of domestic wool are also larger though business is still restricted by the scarcity of jesirable stock. A feature has been the argo movement in scoured wools. Clothing wools are the weak point of an otherwise strong position. A little new rwise strong position. A little new Arizona wool has sold in Boston on the coured basis of 62 cents. Montana wool has figured largely in the transfers of did territory with half blood at 25 cents, line stable at 23 cents and fine medium in the original bags at 22 to 23 cents.

CHICAGO.

Chicago, April 13.—Breaking of high cord marks, which has been a delly eformance in the wheat pit for hearly we weeks was again a feature of arly trading today, all deliveries adapting considerably beyond the season's igh point recorded on the previous assign point recorded on the previous assign point recorded on the previous action. The July option a minute or two first the opening sold at 1.17%, while entember, on initial gransactions, sold t 1.05%; A flurry in the May delivery, trade in the his now very limited, carried the rice of that option up to 1.28, again of 1%. The advance in May was said to ave been largely due to the closing out of trades for a New York house, whose uspension was announced this morning, the market opened excited and strong with prices ranging from 140% to 1% they yesterday's close, July being at 181% to %. After July had advanced to 17% prices slumped a trifle owing to enormous realizing sales. The bulke at the start was helped to some extent by
